When it comes to your supply chain, you cannot afford any weak links. Are suppliers delivering on time or are you left scrambling to meet schedules?

Can you electronically account for every screw in your inventory or do you need to rely on physical counts to ensure accuracy? Can you quickly identify and respond to new demand patterns?

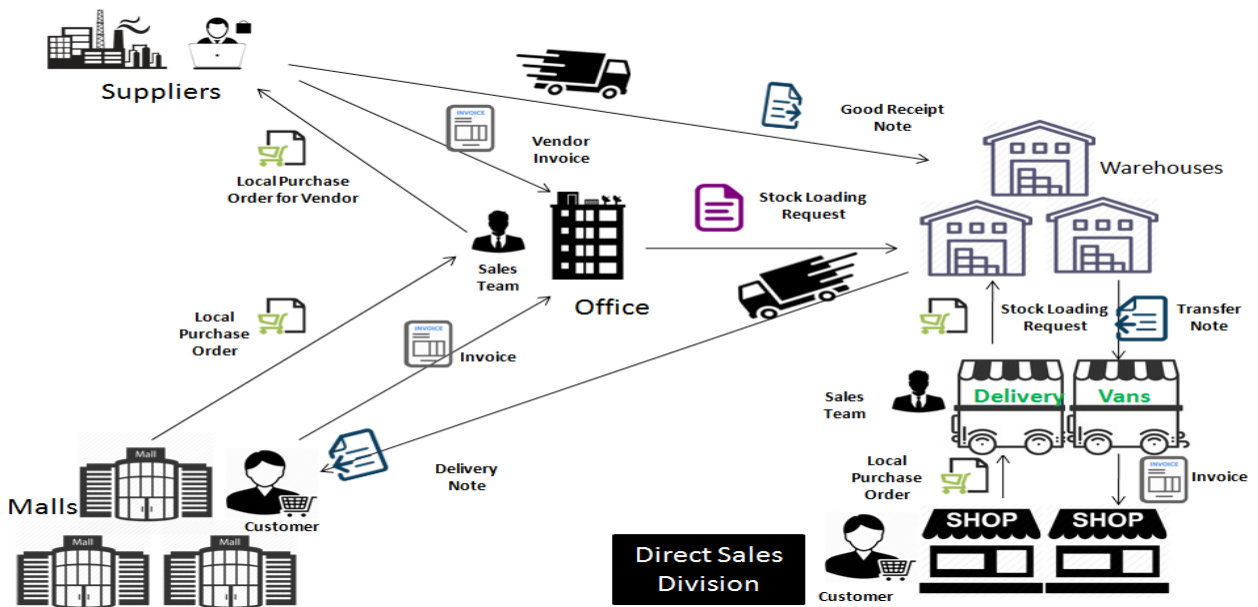

Brilliant with Expertise in Supply chain process and Solution offers complete integrated solution from:

E-Commerce integration >> Sales & Purchase Order Management >> Warehouse Management >> Delivery / Distribution Management >> 3 PL Logistics Billing

Key Benefits :

- Financial close cycle improvement
- Handling the transportation & distribution of goods & cargo
- Warehouse and facility management, including infrastructure and management of mechanization
- Set customer billing frequency (days, weeks, months)
- Uses transactional data to accurately calculate charges
- Billing methods fully configurable for each customer and product
- Calculate charges on a fixed customer rate, per item quantity processed or both
- Process automation
- Order approval for multichannel order capture & processing and Cross channel order routing
- Returns and reverse logistics
- Enterprise inventory visibility

Brilliant WMS Overview :

Brilliant believes that the configuration of any supply chain must consider the client administration and expense. Brilliant Supply chain management software is an excellent solution for managing materials, information, and finances as it moves in the process from suppliers to the warehouse and to the wholesaler and the retailer and finally to the consumer.

Brilliant WMS coordinates and integrates the process flows both within and among companies with ultimate goal to control inventory (with the assumption that products are available when needed).

Analytics & Reporting :

Brilliant WMS reports allows you to better understand the health of your supply chain function with performance, detailed or summarized stock reports. Track bin transactions, order status and bin levels. Brilliant WMS provides you with reports that will help you monitor your inventory. Furthermore:

- Export reports in a desirable format (PDF, Excel, XML etc.)
- Run detailed queries
- Access reports at anytime using the internet
- Reports are based on advanced technology and can be customized to fit your needs
